Recommendations for Use
Connect firing cable leads to the exploder terminals. Screw down the terminal nuts firmly. Insert the magnetic firing key into the white socket. The ready light will illuminate after approximately 6 seconds. Press the red PRESS TO FIRE button to fire the charge. Remove the key after firing. If the ready light does not illuminate after 10 seconds then change the AA battery.

Packaging
The SB10 is supplied in a cardboard box with operating instructions. Each unit is stamped with its serial number on the leather strap.
